A schematic diagram of a branching vessel system, likely a blood vessel. The diagram shows a main vessel branching into two smaller vessels. The main vessel is labeled 10. The two branches are labeled 15. A hatched area, labeled 85, is located on the main vessel 10. Two occlusive devices, labeled 20, are positioned at the junctions of the branches. Arrows indicate the direction of flow: one arrow points down the main vessel 10, and two arrows point up the branches 15. Other labels include 82, 83, 5, and 25, which appear to be part of the occlusive devices or the vessel walls.
